For the Vacation ~~Opening~~ ~~Condemnation of right of way for utility purposes~~ of Harmar Street from the southerly property line extended of Maumee Avenue to the north property line of Jefferson Street.

Resolved by the Board of Public Works of the City of Fort Wayne, Indiana, that it is desired and deemed necessary to vacate Harmar Street from the southerly property line extended of Maumee Avenue to the north property line of Jefferson Street.

All as shown by a plan of such proposed Vacation ~~Opening~~ ~~Condemnation of right of way for utility purposes~~ as above described, now on file in the Office of the Department of Public Works of the City of Fort Wayne, Indiana

The cost of said Vacation ~~Opening~~ ~~Condemnation of right of way for utility purposes~~ shall be assessed against the property beneficially affected thereby.

The property which may be injuriously or beneficially affected by such Vacation ~~Opening~~ ~~Condemnation of right of way for utility purposes~~ is described as follows: Lots 318 and 329, Hanna's Addition and a vacated alley. Also, space known as Hayden Park. Said addition and space are inclusive to the City of Fort Wayne, Indiana.

All according to the method and manner provided for in an act of the General Assembly of the State of Indiana, entitled "An Act Concerning Municipal Corporations", as approved March 6, 1905 and the provisions of all acts amendatory thereto and supplemental thereof, including the right to bond assessments as in said law ordered.

Assessments if deferred are to be paid in ten equal installments with interest at the rate of five (5)% per annum. Under no circumstances shall the City of Fort Wayne, Indiana be or be held responsible for any sum or sums due from the said property owner or owners, or for the payment of any bond or bonds, except for such moneys as shall have been actually received by the City from the assessments for such property damages as said City is by said above entitled act required to pay. All proceedings had in the making of said improvement, assessment of property, collection of assessments and issuance of bonds therefor, shall be as provided for in said above entitled act and all amendments thereto and supplements thereof.

The vacation of the above described street shall be subject to an easement for the use of the City of Fort Wayne, Indiana, ~~and other public utilities~~ for the construction and maintenance of ~~sewers, water mains, gas mains, electric pole lines and conduits, telephone and telegraph pole lines and conduits~~

All Streets, lots and lands affected by the above described vacation are situated in the southwest quarter of Section One, Township 30 north, Range 12 east and lie wholly within the corporate limits of the City of Fort Wayne, Indiana.

Declaratory Resolution, drawing and property ownership list completed and attached.

This vacation was requested in order that Hayden Park can be utilized as a playground area for Harmar School. All departments have indicated they do not object to this proposal but Water Engineering will require an easement grant.

We did not include area residents on the property ownership list because it is impossible to determine an affected area on this type vacation.

The only notification, therefore, will be the newspaper legal ad.

Re: Harmar Street Vacation

Dear Lavon,

Last fall we agreed to process a resolution for the vacation of Harmar Street early in 1968.

We are still unable to do so, however, because the vacation has not been approved by City Plan Commission. If this street is to be vacated in connection with proposed construction work this summer, we suggest your attorney submit a petition to the Plan Commission in the near future.

Please contact me if we can be of further service.

Mr. Fred Ehrman, Chairman

Dear Mr. Ehrman:

The purpose of this communication is to elaborate on two situations that will require your consideration and approval before we can finalize necessary planning involved in two school projects. These situations are:

1. Harmar Elementary School - At one time it was felt we should add certain facilities to this school, increasing its capacity to accommodate the six or seven rooms of students that are upon us almost at the present time. After a more careful evaluation of the situation, however, it appeared to be more appropriate to provide for the expanding population in other ways and not increase the size of an already large elementary building (1000 pupils). Our thinking at the present is to go into the existing Harmar building with a general uplifting to those areas where such is necessary. This would include new windows, some ceiling and floor work, general room redecoration, electrical work, improved office and related facilities, hot lunch facilities, remodelled rest rooms, library, etc. Our request is for the closing of Harmar Street from Jefferson Street to Maumee, keeping Maumee open if necessary. We would then hope to obtain the portion of the park area remaining after the Jefferson-Maumee intersection is improved. The additional space could then provide much needed play and recreational area for the boys and girls. A plot plan is attached for your information.
2. Price Elementary School - As plans were being developed for a classroom addition to the Price School, it was discovered that utilities in an easement cut across our school property immediately adjacent to the west of our existing building. Mr. Dickerson, project architect for Strauss Associates, Inc. and Mr. Wehrenberg, Fort Wayne

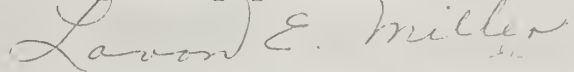

Mr. Fred Ehrman
July 19, 1967
Page 2

Community Schools Engineer, have been active in discussing the problem with various agencies involved. The following items are listed for your information:

- a. The attached plot plan details the situation.
- b. The project is scheduled for bidding this fall with occupancy next September.
- c. After a meeting with Mr. Bonar and Mr. Foland of the Water and Sewer Engineering Department, (1) Mr. Foland indicated the water main should be relocated, (2) Both agreed the Fort Wayne Community Schools could build over the existing 15" sewer if: (a) The sewer is deep enough, (b) an underground easement is created or that required by law to permit free access for maintenance, (c) A manhole be installed at both sides of the addition, and (d) The foundation of the addition be so designed that the sewer not be subjected to any additional structural loading.
- d. An easement could be established around the south and west edge of our property.
- e. The Gas Company has agreed to reroute their main in the easement identified in (d) above.

We would appreciate your consideration of the above requests and would be happy to provide any additional information upon your request. We would like to thank your group and other City Offices that have been so very cooperative in the past.

Very truly yours,
